Dear David,

I would like to express my appreciation for the wonderful program you provided here at the Tully Community Library on Saturday, March 21, 2009. I appreciate the time you invested in the program from start to finish. It was nice of you to initiate our meeting prior to the event for the purpose of checking the facility to see how to best utilize the room for your program. In addition, on the day of the program, I appreciated you coming an hour prior to the show to set up the craft and drums for the program as well as staying after to assist with clean-up.

The program itself was a success with fifty-two eager participants. The directions you provided were clear and allowed them enough time to complete each step. Many in the audience appeared proud of their unique African dolls. Enhancing the crafting time with African drumming helped create a fun atmosphere.

Thank you again for your professionalism and the generosity you extended to our branch. It was a pleasure to work with you.

Sincerely,

Shirley Tanase
